A lifetime of comfort and luxury

Why is selecting the right hearth product so important? Purchases such as a luxury vehicle or high-end electronics will typically be replaced over time, but your gas fireplace will be part of your home forever. Choose the one you’ll be proud to share with your family and friends—choose Mendota. Every detail, from the award-winning flames to the incredibly efficient BurnGreen® system, was designed to help you create a warm and welcoming respite from the rigors of the day. A place of comfort, matched only by the peace of mind of Mendota’s Lifetime Limited Warranty. After all, the memories you create around your Mendota fireplace will last a lifetime. We think your fireplace should, too.
With an expansive view and legendary Mendota flames, this is a fireplace of epic proportions. From end-to-end, the FullView Décor Linear fireplace strikes the perfect balance of high style and high performance. You may never look at luxury the same way again.

Luxury from a new perspective

Model ML39 Décor with Aged Leather Wide Grace front, Birch fire base and Panoramic Metallic Mecha Porcelain Reflective interior lining
(Shown with Magna-Hearth Mantel and Decorative Extension Brackets)
Create a spectacular view
Long on style, you can further enhance our panoramic fire with a selection of fronts to completely customize the look of your hearth. Choose from eight stunning finishes including Black, Aged Leather, Antique Copper, Brushed Chrome, Hammered Leather, Oil Rubbed Bronze, Swedish Nickel and Vintage Iron.
Bold and clean

You want “wow,” Mendota FullView Décor Linear fireplaces deliver, with bold styling and clean lines that immediately let you know this is no ordinary fireplace. Etiquette tells us it’s impolite to stare, so don’t be surprised when friends suddenly master the art of the sidelong glance.

Model ML47 Décor with Black Wide Grace and Traditions paired fronts, Birch and Natural River Rock fire bases, and Panoramic Black Porcelain Reflective interior lining.
Mendota FullView Décor fireplaces let you create a room with the colors, textures and shapes you love, using elements like glass fire stones, natural river rock or panoramic panels that expand and amplify the nuances of the fire. Their stunning aesthetics are matched only by their efficient performance. The possibilities are virtually endless, but the end result is distinctively you.

Model FV41 Décor with Aged Leather Wide Grace front, Norway Spruce fire base and Panoramic Black Porcelain Reflective interior lining

Endless possibilities start here

Mendota FullView Décor fireplaces let you create a room with the colors, textures and shapes you love, using elements like glass fire stones, natural river rock or panoramic panels that expand and amplify the nuances of the fire. Their stunning aesthetics are matched only by their efficient performance. The possibilities are virtually endless, but the end result is distinctively you.
**Make a statement**

How do you turn a chilly room into a cool space? Add the sleek warmth of a Mendota FullView Décor fireplace. Suddenly, a simple wall becomes an architectural design element that draws the eye to the fireplace first. Simple yet stunning, it makes a confident statement in any room.
Model FV41 Décor with Antique Copper Willowbrook front, Birch fire base and Panoramic Metallic Silver Porcelain Reflective interior lining

Model FV41 Décor with Vintage Iron Homestead doors, Driftwood fire base and Panoramic Metallic Silver Porcelain Reflective interior lining
Your space, your style

Mendota Décor fireplaces are built to last a lifetime, but don’t lock you in to one style. Décor is Mendota’s most customizable offering, putting hundreds of configurations at your fingertips and embracing all the elements of your room so you can’t help but notice its warmth and style. Like all Mendota fireplaces, the Décor line perfectly frames the legendary Mendota fire that has been mesmerizing homeowners and their guests for generations.
Redefining luxury

Is it bringing your fire to life with the touch of a button? Is it creating a design that perfectly reflects your style? Is it knowing you’ve made a wise investment in something you’ll see and enjoy every day, guaranteed for a lifetime of beauty and comfort? Luxury is how you define it.

Featured fire base choices:

- Midnight Black Glass
- Liquid Clear Glass
- Black Glass Diamonds

- Slate Gray Clinker Brick
Luxury with every look

Thoughtful gazes or fleeting glances—every look at your Mendota FullView gas fireplace reminds you of why you chose the best. Cleaning ashes and stacking wood become distant memories. With the touch of a button, you can change the entire mood of your room or the outlook on your day. Our fires tend to your needs, not the other way around. Then there's the quiet confidence of knowing every Mendota fire burns with a century-old tradition of craftsmanship and gas technology. You’re also in complete control of design elements from fronts to doors, even interior linings, so you can build a fireplace that fits your exact style. Go ahead, take another look. You’ve earned it.

Model FV34 Arch with Swedish Nickel Grace Arch layered fronts, Premium Fiber Oak Log fire base and Red Soldier Course Brick interior lining

Model FV41 with Antique Copper Stella front, Norway Spruce fire base and Black Porcelain Reflective interior lining

Model FV34 with Hammered Leather Wide Grace front, Birch fire base and Panoramic Black Porcelain Reflective interior lining
Luxury that lasts

Trends may come and go, but the classic design of the ever-popular Mendota DXV Series fireplace is a timeless addition to any home. While many gas fireplaces are stamped out in a cookie cutter approach, each Mendota DXV fireplace is handcrafted to give you a lifetime of comfort and durability. Our DXV fireplaces have won Best of Show honors at the National Hearth Products Association Expo and have been listed as a Best Buy value by Consumers Digest. And now, the classic DXV fireplace combines with Mendota’s BurnGreen® technology to provide the ultimate in style, convenience and green efficiency.
DXV Series

Model DXV45 DT4 with Black Andover doors and optional Swedish Nickel lattice overlay, Premium Fiber Oak Log fire base and Red Soldier Course Brick interior lining

Model DXV35 DT4 with Contemporary Silver Millennia front, Premium Fiber Oak Log fire base and Red Soldier Course Brick interior lining

Model DXV35 DT4 with Hammered Leather Wide Grace front and Hammered Leather decorative bars, Premium Fiber Oak Log fire base and Red Soldier Course Brick interior lining
Transform spaces large and small

Greenbriar makes a big statement in larger rooms

With its dramatic Georgian arch, the Greenbriar replicates the beautiful fireplaces of America’s first families. It is bold and distinctive, open and inviting—the perfect showpiece for rooms that deserve to be shown. The Greenbriar can go from a roaring 50,000 BTUH log fire to the romantic, gentle flames and glowing embers of a 15,800 BTUH late night campfire—all with just a touch.

With Chelsea, inspiration is right around the corner

The inspired design of the Chelsea fireplace gracefully transforms your space, in ways you never thought possible. Place it at eye level in the family game room to bring movement and light to an otherwise bland wall—with no hearth required. Beneath its charming exterior, the Chelsea is an ANSI/AGA 27,000 to 6,750 BTUH high-efficiency wall furnace that will provide plenty of adjustable warmth to any room.
A log set for every style

Get the classic log fire look you want—with the luxury you need. Traditional log set options like Birch, Norway Spruce and Premium Fiber Oak Log have the perfect combination of colors, textures and formations to bring the look of an authentic log fire to life.

NOTE: Due to the unique, hand-crafted process color variations will occur between log sets. Log sets shown are not to scale.

*Natural River Rock must be ordered separately for ML47/ML39 Décor Birch HD and ML47/ML39 Décor Driftwood HD log sets.
Mendota gas fireplace sizing diagram

When it comes to finding the right gas fireplace for your home, aesthetics and heat output are equally important considerations. This chart provides a quick reference for relative scale, but your Authorized Mendota Dealer will help you choose the perfect size based on your climate, floor plan and lifestyle.

Focus on the fire
Mendota’s beautiful log fire is the result of years of research and development. It begins with a careful selection of actual field logs, hand-molded to capture every intricate detail. Each log is hand-painted using a palette of eight colors and arranged to create the exact look and feel of a wood log fire in its most beautiful burning stages. In the end, there’s just you and the beautiful fire—the way the experience was always meant to be.

Mendota sealed combustion, direct vent technology

With Versiheat—forced air heat transfer system (optional)

Mendota’s sealed combustion, direct vent system draws air for combustion from outside the home into a sealed firebox. Exhaust is expelled through a separate vent. Room air is heated and recirculated. The system keeps warm air in and cold air out. This assures high air quality, maximum efficiency and trouble-free operation in today’s tight homes. Versiheat moves heat from your fireplace to other areas in your home. Mendota fireplaces have connections for two Versiheat kits to allow the transfer of heat to two other areas. Heat is moved through ducts with their own blowers and thermostats. This optional system provides heat to more than one room and moves unwanted heat out of the fireplace.

Ask your dealer about Mendota heat management solutions, or visit www.mendotahearth.com

Note: The snapdisc blower activation thermostat supplied with the Versiheat kit can only be installed on DXV35 TimberFire, DXV42 TimberFire, DXV60, DXV35 DT4 (PF1 or PF2) and DXV45 DT4 (PF1 or PF2) models. The snapdisc thermostat CANNOT be installed on M50, FXV34 Arch, FXV34 Décor, FXV36, FXV41, FXV41 Arch, FXV41 Décor, FXV42, FXV46, ML39 Décor or ML47 Décor models.

Special note for PF2 equipped models: The remote Millivolt wall thermostat CANNOT be installed on any PF2 electronic ignition control equipped models including DXV34 Arch, DXV34 Décor, FXV34 Arch, FXV34 Décor, FXV36, FXV41, FXV41 Arch, FXV41 Décor, FXV42, FXV46, ML39 Décor or ML47 Décor models.

Versiheat available for select models only

BurnGreen® comfort control, with just a simple touch

Mendota’s environmentally friendly, sealed combustion, direct vent fireplaces with the BurnGreen® system are designed to meet exacting governmental EPA standards, as well as national LEED® and NAHB guidelines for high efficiency and low emissions. BurnGreen® means burning smarter, giving you choices to conserve fuel and help the environment. It allows you to easily:

- Turn the pilot and burners on and off
- Adjust the heat output to your comfort
- Turn the blowers on and off or adjust blower air output
- Turn the accent light on and off

You can accurately control room temperature using the remote control’s smart digital thermostat. Simply set the temperature, and the burner will automatically turn down as room temperature nears the set temperature, eliminating “spikes.”

NOTE: Remotes vary by model. Ask your Authorized Mendota Dealer which remote is included with your Mendota fireplace.

Save energy by “zone heating” with a Mendota gas fireplace

Heat the room you use the most

With an energy efficient Mendota gas fireplace in the room you use the most, you can turn down the central heat, enjoy the beauty, warmth and fascination of Mendota’s award-winning log fire, and save valuable dollars on your energy bill.

Accent your hearth, with or without flames

Included with select models

Use our accent lighting system when the fire is on to add extra drama and detailing to the interior lining and fire base. Or enjoy the ambiance and gentle glow without flames or heat during warmer months.

With Mendota, beauty and safety go hand-in-hand

Pair education with our factory-provided screens to enjoy your Mendota, safety

Nothing brings families together like a Mendota fireplace in a favorite gathering spot. That’s why we make fireplace safety a top priority. Together, we can make sure you and your loved ones enjoy every moment around the hearth without worry.

First, take a moment to educate children about the dangers of fire, and teach them to never touch the hot glass or metal surfaces surrounding the fireplace. To further promote safe use, all Mendota products are in compliance with government safety screen regulations. Each safety screen has been carefully engineered to keep little hands away from hot glass surfaces while still allowing you to fully enjoy the view of the beautiful Mendota flames.

Keep in mind that while the screens provide an effective safety barrier from the glass, the screens themselves can retain heat for some time after turning off the fire. Be sure to let your fireplace cool completely before attempting to touch it.

See why Mendota fireplaces are among the most efficient in the industry

Get the lowdown on high efficiency to make the smart choice

Much like comparing miles per gallon when buying a new vehicle, fireplace efficiency ratings tell you a lot about how much gas a particular fireplace will consume as you use it. But beware—not all fireplace manufacturers use the same rating system.

The best way to determine the efficiency of a gas fireplace is to ask for its rating based on the CSA P.4 test method. This accurate measurement reflects the overall operation of the fireplace, taking into account its use and performance throughout the entire heating season. Tests using this Canadian standard for measuring annual fireplace efficiency show that while some units operate in the 30% range, the better units range from 70-86%.

With P4 fireplace efficiency ratings ranging from 70.4% to 78.5%, Mendota fireplaces are among the industry’s most efficient and represent a smart choice for your home. Download all independent fireplace ratings from the Canadian P.4 EnerGuide website at www.oee.nrcan.gc.ca (search for Mendota).
Your home deserves a Mendota

Whether you’re building or remodeling, it’s important to help your builder pick a gas fireplace that complements your home and your style. Why?

• A fireplace is a once-in-a-lifetime purchase that’s permanently installed in your home. It’s not something that you replace every so often like a car or television.

• A fireplace is the center of attention in the most important room in your home—something you’ll see and enjoy every day.

• A fireplace is a product from which you expect a high degree of performance and safety.
